

SUNSET BLUE

Music Requirement Sheet & Lift Information

Before you book your entertainment please make sure you read this!

The music for your event is governed under the Office of Fair Trading – Liquor licensing laws of Queensland. In accordance with this legal requirement please note the following information.

WHAT TYPE OF BAND CAN I HAVE?

Provided the doors to our venue are kept closed during the event we do not have any audible limits set down by the licensing division or exclusions for certain types of instruments such as Drums.

This is great news as this means you are welcome to have what ever type of band you wish.

For safety reasons we have **excluded the following types of entertainment:**

- Harps
- Juke Boxes

For insurance and safety reasons at no time is our staff permitted to assist your suppliers / entertainers with carrying the equipment up or down the stairs. This is the responsibility of the entertainer paid to provide you with this service.

IMPORTANT ENTERTAINER INFORMATION

All empty musical instrument cases must be stored at the dance floor / band area or alternatively taken back down to their vehicle as we do not have a spare room to store such equipment.

The location of speakers / video cameras, audio visual equipment must be negotiated with the Manager on duty as these items could inhibit food service.

- Leads must be taped down.
- Leads must not block access to the Fire Hose cupboard.
- Equipment must not block access to the handicap toilet located just off the dance floor area.
- Entertainers are ***not permitted to consume alcohol*** during their performance, regardless of your arrangements with them.
- Entertainers are not permitted to bring extra guests along with them.
- Meals & refreshments are provided at the client's expense.
- For insurance purposes all equipment ***must be removed on the night.***
- Although it is not guaranteed on most occasions we can provide a table if required.
- We have a microphone perched on our lectern set-up for the speeches.
- We do not allow any equipment leads or devices to be plugged into our PA system
- The lighting over the DJ / Band area is on dimmers and will be altered ready for your event.
- We have 2 separate circuits available to run your lights and PA if required
(the GPO in the fire cupboard is a separate circuit to the points on the stage area)

LIFT

OUR LIFT IS A DESIGNATED HANDICAP ACCESS AND UNDER THE HEALTH ACT 1990 WE ARE NOT PERMITTED TO USE THIS LIFT FOR ANY GOODS – NO EXCEPTIONS.

It is your responsibility to inform your suppliers that they have to carry their equipment up the stairs. The venue takes no responsibility if your entertainer refuses to play on the day because you did not inform them they needed to carry their equipment up the stairs.

If your entertainer is elderly or disabled they are welcome to use the lift but their equipment must be carried up the stairs.

Your elderly or disable guests are welcome to use lift to gain access to the venue (at the designated start time.)
[Please note: due to the time it takes to ferry passengers in the lift this service is offered to gain access and to leave the building. We do not allow guests to travel up and down the lift for photos or smoking.]
